Oath of Hippocrates

I do solemnly swear by that which I hold most sacred that I will be loyal to the Profession of Medicine and just and generous to its Members.

That I will lead my life and practice my Art in uprightness and honor.

That into whatever house I will enter, it shall be for the good of the sick to the utmost of my power.

That, holding myself aloof from wrong, from corruption, from the tempting of others to vice, I will exercise my Art solely for the cure of my patient and will give no drug, perform no operation for a criminal purpose, even if solicited, far less suggest it.

That whatsoever I shall see or hear of the lives of men which is not fitting to be spoken, I will keep inviolably secret.

These things do I promise. And in proportion as I am faithful to this, my oath, may happiness and good repute be ever mine. In the opposite if I shall be foresworn.

Back To School Party

Ballroom Dancing

The Ballroom Dance Club saw its inception in the 1998-99 school year. Loren Bearden, the founder of the organization, developed the idea during her second year of medical school. Having taken the classes herself, she believed it would be an enjoyable outlet for those in the LSUMC community.

Under Loren's direction, the Dance Club was formed, and she and David Parry of Dallas, Texas began teaching dance to students, faculty and house officers.

The experience proved to be enjoyable for all of the participants, and the "students" got a chance to show off their moves at an end of the year social held at the Shreveport Country Club. After it was all said and done, there's no doubt the floor had to have been burning up!

In these pictures you see students, faculty and house officers learning the ins and outs of ballroom dancing. David Parry of Dallas, Texas (top left picture on left) serves as one of the instructors, while Loren Bearden, MSIII (top right picture on right) is the organization's other instructor, as well as its organizer.

Sports

Members of the third-year class prepare for a weekend paintball duel for a bit of relaxation.

Hey, guys, what play are we gonna run? More importantly, where's our QB?

Students at LSUMC-Shreveport have a plethora of ways to relax themselves during what little free time they have.

These activities include taking a weekend ride to Baton Rouge to catch a Tigers' game or an evening ride to LSU-Shreveport to participate in intramural sports. Whether it be volleyball, basketball, softball, or flag football, we have a number of opportunities to have fun.

The students here also find a number of ways to provide themselves with their own entertainment. Paintball, fishing, hunting, you name it, it's all done here in the Sportsman's Paradise.

Left: And one! Craig hacked in the act during intramural basketball at LSU-S. Above: Nice catch guys! So who actually pulled him in?

Crawfish Boil

Nineteen hundred and ninety-nine marked LSUMC's last Crawfish Boil of the millennium. Since its inception nineteen years ago, it has served as a friendly gathering for those in the LSUMC community. Good food and good music are two of the components which make it a favorite of ours; however, it's the people which make it all worthwhile.

Attendees of the event fully enjoy themselves with the good conversation, tons of crawfish, and a wonderful family atmosphere. As you look at this page, you can see all of these attributes depicted here.

SNMA

The Student National Medical Association is an organization of medical students, premedical students, residents, and licensed physicians focused on the needs and concerns of medical students of color.

This organization was established in 1964 and has chapters at allopathic and osteopathic schools across the nation. The programs implemented by these local chapters are designed to (1) serve the health needs of under represented communities, educating people about important health matters and (2) assuring that medical services are sensitive to the needs of culturally diverse populations.

The LSUMC-Shreveport Chapter attempts to reach the national goals by implementing the MAPS, HPREP, and YSEP national programs, as well as by participating in a number of other projects.

“AOA”

Alpha Omega Alpha, the only national medical honor society, was established at the College of Physicians and Surgeons in Chicago, Illinois. It was organized for educational purposes exclusively and aims for the promotion of scholarship and research in medical school, the encouragement of a high standard of character and conduct among medical students and graduates, and recognition of high attainment in medical science, practice and related fields.

**Congratulations
William Ray Ford, M.D.
We are so proud of you!**

Ray, we rejoice with you as we see the Lord's plan for your life unfold. What an exciting accomplishment to graduate from medical school. You have worked hard and used the talents God has given you to accomplish a dream that you felt called to do many years ago. But, much more than graduating, are your accomplishments as a son, brother, husband, and father. We have all been blessed by knowing you. Through all the long hours of studying and hard work, you always put family and most importantly, the Lord, first. And as we know you would have it, we give God the glory for what He has accomplished through you. Eph. 3:20 "Now to Him who is able to do immeasurable more than all we ask or imagine, according to His power that is at work within us. To Him be the glory."
